##### 27 February 2020

On Thursday 27 February, the School of Languages and Linguistics (University of Portsmouth) hosted the annual Association of Translation Companies (ATC) networking event. It was a great opportunity for translation and interpreting staff and students to network with language service providers and learn about current career opportunities in the industry. In the afternoon, undergraduate and MA Translation Studies students had the chance to talk to employers directly on an individual basis. The University Careers Department was also invited to attend to assist with questions and give information about their services. This is one of the many collaborations that the School has with translation industry stakeholders in the UK and abroad.
