## Plenary Workshops

### LANGUAGES IN/AND ACTION: DEVELOPING NEW SPECIAL INTEREST GROUPS

The afternoon session for the July 2020 UCML Plenary will be a series of e-workshops devoted to the topic of Languages in/and Action: Developing New Special Interest Groups. The afternoon e-workshop, also open to representatives of all UCML Member Organisations, will consist of four sessions that will profile three new UCML Special Interest Groups devoted to:

- Early Career Academics;
- The Virtual Year Abroad;
- AMLUK (Alliance of Modern Languages, Area Studies and Linguistics Subject Associations UK).

It will end with an update on the integration of Routes into Languages into UCML as a sub-committee.

There is no expectation that participants attend the whole day. We anticipate that people dip in and out and attend those elements of the day that most interest them.

The event will take place virtually. In order for us to manage capacity, please click [here](#) to register for any or all of the events. The deadline for registration is **noon on 8 July 2020**.
