| 4.d Early Career Academics | LL  |

### **5. Any other business**

# Plenary Workshops

## ADAPTING/SHAPING CHANGE

The afternoon session for the January 2021 UCML Plenary will be a series of e-workshops devoted to the topic of Adapting/Shaping Change. The afternoon e-workshop, also open to representatives of all UCML Member Organisations, will consist of three sessions that will seek to respond to the current challenging times by exploring different ways of adapting to and shaping the changes our discipline faces:

1. Special Interest Groups (AMLUK; Early Career Academics; Year Abroad)
2. Change in Challenging Times
3. UCML/IMLR joint panel: Rethinking research/teaching directions for languages

There is no expectation that participants attend the whole day. We anticipate that people dip in and out and attend those elements of the day that most interest them.

The event will take place virtually. In order for us to manage capacity, please click [here](#) to register for any or all of the events. The deadline for registration is **noon on 13th January 2021**.
