

Area Studies Report

I joined the UCML recently and have little to report so far.

The UKCASA is the umbrella association for Area Studies work in the UK. The current President is Nick Selby of the University of East Anglia, Vice-President is Tony Chafer of the University of Portsmouth, and Secretary is Susan Hodgett of the University of East Anglia. I have reached out to Professor Susan Hodgett to discuss recent concerns and issues raised within the UKCASA. She is currently on leave. I will report my discussions with her back to the UCML afterwards.
